## **ITW TACC offers new Acoustical Sealant/Vapour Barrier Sealant**

Rockland, MA (April 12, 2010): ITW TACC, a leading manufacturer of professional and industrial grade adhesives, is proud to announce its new VOC compliant Acoustical / Vapour Barrier/ Architectural sealant. This versatile product was designed to be used as a sound sealant in commercial applications as well as an air barrier sealant in residential construction. It also meets VOC regulations in both the United States and in Canada.

“By offering a full line of compliant products to our customers, ITW TACC continues to be the leader in environmentally safe construction adhesives,” says ITW TACC Product Manager Bill Dunn. “We are committed to serving this marketplace for the long term.”

ITW TACC’s VOC compliant portfolio of adhesives offers the same performance that has been offered for decades: high strength bonds for assurance of quality parts, fast and efficient applications to ensure low cost operations, and a trusted name that you can rely on.
