

MIRACLE® LUMBER LOCK® G SUBFLOOR ADHESIVE EARNS PFS AND GREENGUARD CERTIFICATIONS

Rockland, MA (May 20, 2008): One of the most recognized names in construction adhesives—Miracle—has developed a subfloor adhesive that meets the rigorous ongoing testing standards for both product performance and chemical emissions. LUMBER LOCK G Subfloor and Construction Adhesive complements Miracle’s growing line of regulatory compliant adhesives.

LUMBER LOCK G provides durable, weatherproof bonds, adhering to wet and frozen lumber, and helps keep job sites clean with low-splattering performance, according to manufacturer of Miracle adhesives ITW TACC. LUMBER LOCK G also meets SCAQMD Rule 1168 air quality requirements and contributes to several credits for many green building rating systems, including LEED®.

“Miracle has always been synonymous with quality, especially with its LUMBER LOCK subfloor adhesive,” said ITW TACC Building Products Business Manager Craig Waters. “LUMBER LOCK G extends Miracle’s product line to give builders a high-performance LEED® option.

Like its established solvent-based counterpart LUMBER LOCK, LUMBER LOCK G is 3rd party tested to meet ASTM D3498 Field-Gluing Plywood to Lumber Framing for Floor Systems. In addition, LUMBER LOCK G is GREENGUARD Children & Schools CertifiedSM. Green building and product data can be found online in ITW TACC’s Document Library at www.itwtacc.com.

LUMBER LOCK G comes in 28 oz cartridges and 55 gallon drums. For more information, contact Carmen Lanzillotta at 800-254-1406.
